

Taft College ISLO

Current ISLO for Computation

Graduates should be able to solve problems involving data gathering and analysis, apply mathematical concepts, and use technology in the process.

Proposed change to Computation ISLO—fall 2018

Graduates should be able to use quantitative reasoning to solve problems involving data gathering and analysis, and apply mathematical concepts to a variety of everyday life situations.

Proposed name change to ISLO to Quantitative Reasoning (Senate Council suggestion 3/21/2018)

OR

Adopt GE Breath (Senate Council suggestion 3/21/2018)

As noted in EO 1100 Article 5 B4 Mathematics/Quantitative Reasoning

“...students shall demonstrate the abilities to reason quantitatively, practice computational skills, and explain and apply mathematical or quantitative reasoning concepts to solve problems.”
