Governance Council process for reviewing APR goal forms following ranking

Ranking results are presented to the Governance Council after compilation. The preferred process covers two meetings of the Governance Council. (Note: The Governance Council has traditionally been scheduled to meet twice each month so that these processes can be completed in a timely manner than if the Governance Council meets only one time per month.)

The Governance Council “looks” at the indicated rankings to see if anything “looks” unusual based on people’s expectations. Members of the Governance Council share the initial rankings with their constituents for discussion before the next Governance Council meeting. At the 2nd meeting of the governance Council, the rankings are discussed including any constituent concerns or questions brought forward by the representatives. Following discussion, a thumbs up, thumbs down count is completed.
