I. Approval of Minutes

Minutes from the last meeting, were approved by consensus.

II. Meeting

The committee discussed the new online environment the campus is dealing with and how that will affect the success rates of our students. Vicki suggested potential committee goals for the upcoming year include reports on the following:

- Transfer rates
- Retention
- Persistence
- Graduation

Jessica also suggested looking at data for disproportionately impacted (DI) students in these same areas as a way to ‘drill down’ to identify success. This would fit into the Access Committee’s goal of Strategic Enrollment Management.

Jessica suggested we consider looking at how employment needs outweigh transfer needs for our students, and this potential effect on our transfer rates. Could this have led to a dip in transfer rates for the prior year/term? Are there equity gaps amongst those transfer populations?

The committee discussed the virtual platforms being used for student services and instruction. Lori, Jill, and Lourdes discussed the measures they have taken to support students within their programs.
Once again, Windy discussed the need for more collaboration with the Access Committee and she has been asked to attend those meetings. Vicki reminded us that the Student Success Committee did ask for Governance Council guidance regarding committee goals and didn't receive much support.

III. Other business:

No other business reported.

IV. Next Meeting: Thursday, September 10, 2020
